(XXVIIIth YEAR.) THE (No. 1413.)

MARYLAND GAZETTE.

THURSDAY, OCTOBER 8, 1772.

WARSAW, *June* 24.

GENERAL Haddick has publiſhed a declaration in the Poliſh language, dated the 10th of this Month, wherein it is ſaid, "That the Emperor takes under his protection all the country occupied by his troops; that the inhabitants ſhall be treated like his own ſubjects; and that no body ſhall be diſturbed in their habitations.

General Eſterhazy has cauſed Leopol to be occupied by 2000 Auſtrians and likewiſe ſummoned the garriſon of Lublin to retire, to make room for his troops.

BERLIN, *June* 27. The Queen of Pruſſia left this city on Tueſday laſt the 25th inſt. and went to Shoenhauſen, where her Majeſty uſually reſides during the ſummer ſeaſon.

The Prince Royal of Pruſſia returned, on Thurſday laſt the 25th inſt. to Potzdam, from Pruſſia, where his Royal Highneſs has been ever ſince the reviews of Marienwerder.

LONDON,

July 3. Lord North has the ſtate of publick credit at preſent under conſideration, and it is expected that ſome ſalutary laws with reſpect to commercial failures particularly, will be paſſed in the next ſeſſion of Parliament.

On Wedneſday one of the greateſt Bay-factors in Europe ſtopped payment.

The Robert and Elizabeth, Boyle, from South-Carolina for Liſbon, is entirely loſt; the crew were ſaved.

July 6. Notwithſtanding the reports of the late coalition among the friends of liberty, there never was a greater likelihood of a ſharp conteſt for the dignity of Lord Mayor at the next election; for, we are aſſured, the Aldermen Townſend and Sawbridge will be ſupported by the conſtitutional ſociety, the Aldermen Crosby and Wilkes by the Bill of Rights, and the Aldermen Shakeſpear and Sir James Eidaile, by the friends of government.

July 8. A meſſenger was yeſterday diſpatched to our Ambaſſador at Conſtantinople with inſtructions to give his aſſiſtance in promoting and concluding the peace as ſoon as poſſible between Ruſſia and the Turks; from which it is imagined, that the Empreſs's troops are wanted in ſome other part of the world.

July 9. The report of Prince Maſſerano's ſetting out for France, in order to prevail upon that monarch, to accede to the views, and ſecond the deſigns of the Spaniards, we have every reaſon to believe altogether groundleſs. France is by no means diſpoſed for war, and ſhould ſhe be ſo ced to form any *hoſtile* union, in all probability it would be with Great-Britain, as the continental commotions, and the ſituation of Poland, ſeem to render a league between theſe two Crowns at preſent, more natural, as well as neceſſary, than a junction of any other kind.

Letters from Berlin mention, that the King ordered a detachment of 8000 men, with ten pieces of cannon, to march immediately into Poland, which order was put into execution on the 20th of laſt month.

Extract of a Letter from on board the Hope Merchant ſhip, Capt James Carr, dated at Malaga, May 30, 1772.

"We arrived here on the 27th all in good health, though we encountered a dangerous ſtorm in the Bay of Biſcay. On the 28th ſeven ſail of Spaniſh men of war, and two frigates ſailed out of harbour for Seville, where they are to be joined by ſome more men of war, who have two officers to command the fleet, an Admiral, and a Vice-Admiral; are afterwards to proceed on ſome ſecret expedition, but to what part of the world it is kept a profound ſecret."

By the laſt accounts from Holland we hear, that the approach of a general war throughout Europe is at preſent the chief ſubject of converſation in that country.

It is ſaid that Great-Britain has at length come into the meaſures of the Emperor, the Empreſs of Ruſſia, and the King of Pruſſia, regarding Poland; and that the chief advantage to be derived by us, from this acceſſion, is, reſpecting Hanover and Oſnaburgh; the ſafety of which being guaranteed on any future war, we may avoid all future continental belligerant connections.

July 18. On Thurſday laſt a very conſiderable houſe in the American trade ſtopt for between ſixty and ſeventy thouſand pounds, owing to the ſlow circulation of money from that continent.

Extract of a Letter from Paris, July 9.

I ſend this letter to you by a ſpecial courier, and immediately on his arrival I would have you cloſe my *bear account* in India ſtock. I have written by the ſame channel a letter to my banker, giving him a commiſſion to buy me 20,000l. India ſtock, and you may buy 20,000 more on my account, but buy it only in ſingle thouſands, becauſe I would not have the market alarmed, by your offering to buy ſo large a ſum, all in one purchaſe. Take no notice to my banker of this commiſſion, which I now ſend you unknown to him. The reaſon of my turning a *bull* in India I ſhall not keep ſecret from you. For you muſt know, that our Miniſtry, preſently after the Duke of Choiſeul's diſgrace, ſent orders to the iſland of Mauritius to recall *five thouſand* men, regular troops, *double officered*. And yeſterday our Court received the agreeable news of the ſafe arrival of part of theſe troops, and that the reſt would arrive here about the middle of Auguſt; our Court having received certain advices that the other troops from India, now bound for France, had arrived ſafe at the Cape of Good Hope.—This intelligence, I underſtand, will be notified in due form to the chairman of the Engliſh Eaſt-India Company, by our ambaſſador at your court. Therefore be as expeditious as poſſible in compleating my commiſſion. I have ſent my banker the ſame inſtructions relative to the 20,000l. There is an Engliſh gentleman here, who got intelligence of this news early this morning, and he took a bett that was offered him of one thouſand guineas againſt one hundred, that your India would be 250, on or before the 29th of Auguſt next. A certain banker connected with our Miniſtry, has offered this Engliſh gentleman 500 guineas *down* to ſtand his chance, but this offer was refuſed. For now it is the fault of your own Miniſtry, or your own Directors of the Eaſt-India Company, if they do not raiſe the price of that ſtock to three, or even to four hundred. There are no French troops now in India to give your Company the leaſt umbrage, ſo that there is now an entire end to all diſputes in that part of the world, between the French and Engliſh; and your Directors may make themſelves abſolute ſovereigns of that mighty empire, without any check or controul; for as there are no European troops to reſiſt them, they muſt remain the ſole and undiſturbed maſters of the whole Indoſtan, if they are minded. You may implicitly depend on it, that this intelligence is abſolutely authentic: And beſides this intelligence, I can of my own knowledge aſſure you, that all our country as well as our King, are now determined to have a peace at all events with Great-Britain. Theſe, my good friends, are the powerful reaſons that have thus induced me to quit my bear-account in India, and to commence as great a *Bull*, as the ſtrength of my capital will prudently ſuffer me to be.

July 25. A Great Perſonage a few days ſince, ſent an American General a Bank note of 500l. and ſettled on him 200l. per ann.

July 27. Lord North's language at a late Privy-Council was, the neceſſity of ſupporting the authority of Great-Britain, at all events, in every part of the Britiſh Dominions; and his Lordſhip aſked how any man could poſſibly call himſelf a friend to his country, who in the leaſt argued for rendering her ſupremacy a queſtion.

A report now prevails ſtrongly about town, that a rupture is on the eve between England and France. Some circumſtances here within this week paſt, indeed, might naturally create ſuch a report; but the French Monarch is too well acquainted with the great ſervices that are daily rendered to his country, by our traveling fools, to retard their folly by entering into a war that would, in all probability, prove his utter deſtruction. Our miniſtry, therefore, have nothing to do but diveſt themſelves of their wonted puſillanimity, and inſiſt on ſatisfaction for the inſults the Engliſh nation has received; but if a ſeries of negotiations are to be the methods taken, as uſual, we in the concluſion ſhall be looked upon by all Europe as a nation of mean poltroons.

The news from Mauritius of the miſerable condition of the French troops in that iſland, is confirmed, with this additional circumſtance, that nearly one half of them periſhed by ſickneſs and famine; and that being, by the hand of Providence, rendered incapable of carrying the ſtroke they had meditated into execution, thoſe who had eſcaped the mortality are ordered home. Their whole number is ſaid to have been eight thouſand choice troops, and their deſtination is now known to have been againſt the Company's acquiſitions in Bengal.

July 30. Stocks varied on Tueſday very conſiderably before the foreign letters were delivered, occaſioned by a report which prevailed in the Alley, that the French were fitting out ſeveral privateers at Dunkirk, Calais, and other ports in the Channel.

Aug. 1. It is aſſerted in the city, that Mr. Fordyce has declared his determination to appear to the ſtatute of bankruptcy awarded againſt him; and that at his own particular ſolicitation the period of his ſurrendering was enlarged.

Extract of a Letter from a Gentleman at Madrid, June 24.

"I have juſt received the following account from a friend of mine, who is an officer in the Spaniſh army, and is now at Peru. Some time ſince orders were ſent from the Spaniſh Court to the Viceroy of Peru to fit out three ſhips, and man them well; theſe ſhips were to ſail to the iſland of Chiloe on the coaſt of Chili, where they were to pitch upon ſome place for building a town and forts, in order to keep the natives of that iſland in awe, as they burnt Caſtro (the only town that the Spaniards ever had there) about ſeven years ago. Accordingly three ſtout ſhips were fitted out and well manned. They ſailed from the harbour of Guaquil on the 10th of March laſt, with a fine gale at S. E. and on the 27th of the ſame month arrived off Caſtro, and came to an anchor there, but attempting to go aſhore in their boats, they found the natives drawn up on the beach, armed with muſkets, ſwords, and their own country weapons, bows, arrows, and clubs, with which they threatened to oppoſe their landing; the Spaniards did not think fit to go on ſhore there, but getting on board their ſhips hove up the anchors, and ſtood into the Bay, where turning the broadſide of the ſhips on the ſhore, they fired upon the Indians, and did great execution, on which they retreated, and the Spaniards landed, and taking poſſeſſion of the iſland in the name of the King of Spain, immediately began erecting a fort where the old one formerly ſtood; and landing all the men out of two of the ſhips, the other was ordered to return with an account of their ſucceſs to Guaquil, where ſhe arrived on the 21ſt of April. An expreſs was ſent off to Lima, and in leſs than three weeks nine large veſſels, with ammunition and every neceſſary ſtore, ſailed for Chiloe, to begin rebuilding the old town, and fortyfying it in the beſt manner. This iſland is looked upon by the Spaniards as a place of great importance, as it will effectually hinder another European nation from having any connections with the Chileſians on the continent; many tribes of theſe people, and a great part of the Chili, where ſome gold mine are ſituated, not being under the power or dominion of the Spaniſh King."

Aug. 3. On Saturday John Innis, alias Jennis, alias Johannes, was committed to Newgate by Samuel Sedden, Eſq; charged on oath with piratically running away with a ſchooner belonging to the merchant ſhip Venus, of London; and alſo with the wilful murder of Colin Watſon, the commander of the ſaid ſchooner, on the high ſeas, within the juriſdiction of the Admiralty of England.

The account of Lord Chatham's being ſhortly to take a lead in the preſent adminiſtration, we are informed, aroſe from the following incident: An expreſs was diſpatched to him about three weeks ago, intimating that a great perſon deſired to ſee him; to which his Lordſhip is ſaid to have replied, "That he was ready at all times to obey the commands of that Perſonage, but that he knew his preſence at this time was unneceſſary, as he could be of no ſervice in the preſent poſture of affairs."

It is difficult to ſay what can lead people to ſuch apprehenſions of war at this time: It may contribute to relieve the fears of good men, to inform them, that the ſix regiments, which it has been ſaid to embark immediately for Minorca, are nothing more than a ſingle battalion of artillery going out upon the uſual relief.

They write from Dublin that it is the publick report there that Lord Townſend is to be continued in Ireland another year; and that the laſt diſpatches received at the Caſtle have brought a confirmation of that buſineſs.

They write from Breſt, that diſpatches had juſt been ſent off to the Governors of the French Weſt India Iſlands, containing ſome freſh inſtructions concerning a regulation of trade between the ſubjects of their Britannick and Moſt Chriſtian Majeſties in America.

Aug. 4. The French ſeem as intent on the diſcoveries to the South as we are; a letter from Compeign informing us, that the Sieur de Kergueilen, lieutenant in the navy, had the day before the honour of being introduced to his Majeſty, by the Secretary of State in the marine department, after his return from making diſcoveries in the South. His Majeſty did him the honour to examine the rout taken by the ſaid officer in his voyage; and, to mark the ſatisfaction he received in the manner in which he had fulfilled his commiſſion, his Majeſty told him he had appointed him a captain of one of his ſhips of war.

Aug. 5. Yeſterday a meſſenger was diſpatched to Lord North, at his country ſeat, in conſequence of which his Lordſhip is expected in town this day.

Notwithſtanding how much the civil liſt is in arrear, there is leſs apology for it now than for many years paſt, as the crown, by the deaths of their Royal Highneſſes the Duke of York, the Princeſs Dowager of Wales, and the Duke of Cumberland, has ſaved one hundred thouſand pounds per annum.

A *ſuperſedeas* is expected this day to be granted to the Commiſſion of Sir R. G———n and H———x, bankers; and it is expected the Houſe will immediately proceed to buſineſs.

Certain advices are received from Paris, that the French have ſuſtained a loſs of eight men of war, ſeveral tranſports, and upwards of 2000 ſeamen, by the hurricane at the Iſle of Bourbon, in the Eaſt-Indies, in April laſt.

Aug. 6. There were univerſal rejoicings at Liſbon, on account of the death of the Prime Miniſter.——— The whole cargo of a ſhip from America, with flour,

to be sent back, unmerchantable.——As a French fleet was lost in the East-Indies, on the last of Feb.—An army of 40,000 effective men now in the capital of the suburbs of Paris.

STRAYED from the Subscriber, and was seen a few Days ago above the *Head of Severn*, in the Road to *Elk-Ridge*, a bright bay Gelding, about 14 Hands and a half high; blaze Face, hanging Mane and switch Tail, but no Brand that I remember, a dark Spot appears on his Weathers, as if he had the Pole Evil, his Shoes were lately taken off, and left his Hoofs much broken, which makes him often stumble; he paces agreeably, under Saddle, and has high Spirit; being lately in a Carriage his Breast is rubbed bare by the Harness. Æquè pauperibus prodest, locupletibus æquè,
Æquè neglectum pueris senibusque nocebit. HOR.

THE Inhabitants of *Lancaster*, *York*, *Reading*, and Parts adjacent, are desired to take Notice, that in Consequence of the earnest and repeated Solicitations of several Persons labouring under Disorders of their Eyes and Ears, and whose particular Circumstances and Situation preclude them from the Benefit of applying for Assistance at *Philadelphia*,

Dr. GRAHAM, OCULIST and AURIST, proposes to be at *Lancaster* on Sunday, the First of *November* next: from thence he will go to *York-Town* on the Ninth; he will return to *Lancaster* on the Twelfth, and continue there Two Days longer: on the Fifteenth he proposes to be at *Reading*; and at his House in *Philadelphia*, on Tuesday the Seventeenth of the same Month, at which Places he may be consulted in all the Disorders of the Eye and its Appendages; and in every Species of Deafness, Thickness of Hearing, Ulcerations, Noise in the Ears, &c.—Those Persons likewise, who have had the unspeakable Misfortune of being born deaf and dumb, and those who labour under any Impediments in their Speech, by applying personally, will, probably, be assisted. Those Persons whose Eyes are utterly perished or sunk in their Heads, may have the Deformity removed by artificial Eyes, so curiously fixed and adapted to the Orbits, as to have, in Appearance, the Beauties, Motion, &c. of a natural Eye in its healthy State.

The Structure and Diseases of those tender, sympathetic, and nearly connected Organs, to which Nature has assigned the most important Offices of Life, have for many Years particularly engaged his Attention and Practice; whence, regardless of vague conjectural Hypotheses he hath deduced, on rational Principles, Methods of Cure, improved and confirmed by the most accurate Observations in a Course of Practice, the most extensive, and, perhaps, the most successful of any of his Contemporaries in *Europe* or on this vast Continent.

The candid and intelligent Inhabitants of these Parts of *British America* can readily distinguish true Merit from pretended Knowledge: To conciliate their Favour, Doctor *Graham* begs Leave to assure them, that, with Tenderness and Moderation, even to the poorest Individual, his best Abilities shall at all Times be exerted to serve them. Since his Arrival in this City, in *November*, 1771, Four Hundred and Seventy Patients have been cured or relieved of the following Disorders, many of which had been of long standing, and deemed incurable by other Practitioners, even by Gentlemen who otherwise do Honour to the Profession, the Moderation and Success attending their Practice sufficiently evincing that they are worthy and capable of the great, the important Charge with which they are entrusted. The chief Disorders are as follows, *viz.*—Total, partial and periodical Blindness; Weakness and Dimness of Sight; Squinting; Pain, Swelling and Inflammation of the Eyes; Spots, Specks, Pearls, or Films occasioned by the Small-pox, Blows, or extraneous Substances; weak, watery, red, spongy and ulcerated Eye-lids; falling off of the Hairs of the Eye-lashes;—Spasmodic Twistings of Muscles; involuntary Weeping of the Tears; Tumours and Excrescences; Fistulæ lachrymales.—Total and periodical Deafness; Hardness of Hearing; Pain and Inflamations; painful Sensations in Consequence of loud Sounds; Cracking, Itching, continual and remitting Noises in the Ears; offensive Runnings occasioned by Colds, Swimming, Picking and improper Applications, or by long and severe Sicknesses; Insects and extraneous Bodies getting into the Ears; Ulcerations with Caries of the Bones; Polypi, &c.—and several Persons born deaf and dumb, who have made very considerable Advances in Speaking and Hearing, insomuch that perfect Cures will probably be effected.

Those who have Occasion for Assistance are desired to apply immediately, for Business in *Philadelphia* will require his Attendance as usual, at his House the Corner of *Fifth* and *Market-Streets*, *Tuesday*, the 17th of *Novembtr*.

N. B. The Poor who apply properly recommended, will be assisted gratis, with Advice, Medicines, or manual Operations, as their respective Cases may require; and they are desired to apply every Morning between the Hours of Six and Eight.

TO THE PUBLICK.

20th *Auguſt*, 1772.

A STAGE from the City of *Philadelphia* to *Baltimore-Town* is now erected, very convenient for Perſons travelling, or tranſporting Goods or Luggage to or from either Place, which will regularly go from the reſpective Places, at the Times and for the Rates hereafter mentioned. The *Wilmington* Stage Boat, kept by *Buſh* and *Foudrey*, leaves the *Crooked Billet* Wharf in *Philadelphia* every Wedneſday, and generally arrives at *Wilmington* in a few Hours; the *Charles Town* Stage Waggon, kept by *Patrick Hamilton*, leaves *Wilmington* every Friday Morning, and arrives at *Charles-Town* the ſame Day; and the *Charles-Town* Packet, kept by ſaid *Hamilton*, leaves *Charles-Town* every Saturday, and frequently arrives at *Baltimore* the ſame Day; ſo that Paſſengers have a greater Certainty of travelling to and from *Philadelphia* in theſe Stages, and with leſs Expence, than in any other. On the Return, the *Charles-Town* Packet leaves *Baltimore* every Tueſday, the Stage Waggon leaves *Charles-Town* every Thurſday Morning, and the Stage Boat leaves *Wilmington* every Friday. Paſſengers from *Philadelphia* to *Wilmington* pay Two Shillings each, from *Wilmington* to *Charles-Town* Five Shillings each, and from *Charles-Town* to *Baltimore-Town* Four Shillings each; Luggage in Proportion. As *Wilmington* is within Three Miles of *Delaware* River, and *Charles-Town* about 3 Miles from *Suſquehanna* and 8 Miles from the Mouth of *Elk* River, our Boats are very ſeldom, if ever, detained by low Tides or contrary Winds, a Diſadvantage which ſome other Stages from *Philadelphia* to *Baltimore* labour under. The Certainty of this Stage and moderate Rates will, it is hoped, induce the Publick to encourage ſo uſeful an Undertaking. And as *Charles-Town* is ſituated within Thirty ſix Miles of the Town of *Lancaſter*, a proper Encouragement of this Scheme may be a Means of promoting a uſeful Stage between *Baltimore* and *Lancaſter*, by the Way of *Charles-Town*, at a very moderate Expence.

The Publick may be aſſured, that the greateſt Care and Punctuality will be obſerved by the Undertakers.

Orders left with Meſſ. *Smith* and *Flanagan*, or Mr. *William Neill*, Merchants in *Baltimore-Town*, or with Capt. *Thomas Elliott* at *Fell's-Point*, ſhall be executed with Fidelity. (3m)

Patapſco Furnace, near *Elk-Ridge Landing*, in *Anne-Arundel* County.

To be ſold at publick Vendue, on Monday November 2,

SEVERAL Tracts of Land, containing about 4400 Acres, *viz.* One of 1700 Acres, One of 1500, and another on the River Side, with a valuable Fiſhery, containing 466 Acres, beſides ſeveral ſmall Tracts, all on and near the River *Patapſco*. The Three large Tracts mentioned are ſituated only about 6 or 8 Miles from *Baltimore-Town*, where is a ready Money Market twice a Week for all Sorts of Proviſions. There are on the Premiſes One large Plantation, containing about 500 Acres; another of 200, with convenient Houſes; and cleared Ground ſufficient to make a Third Plantation of 400 Acres, Grubbing and Fencing only wanted; a large Quantity of Meadow Land; a Furnace, built about the Year 1760, with a Stone and Brick Bridge, and Caſting Houſe. A new Griſt Mill fit for Country Work, ſtanding on a fine Stream of Water; and alſo a Mill Seat on navigable Water, where has been a Mill formerly: Its Situation is perhaps as pleaſant and advantageous for erecting a large Merchant Mill on as any in the Province, and lies convenient to all the Back Country of *Elk-Ridge* and *Frederick* County, for the Purchaſe of Wheat; the Water Carriage to *Baltimore-Town* being not more than 10 or 12 Miles.

There will likewiſe be expoſed to Sale, provided the Lands are diſpoſed of, a Number of valuable Servants and Negroes, ſeveral of which laſt have been employed in a Furnace, *viz.* One young Fellow a good Workman as Keeper, others as Fillers and Aſſiſtants to the Founder and Keeper below; and ſome uſed to raiſing Ore and cutting Wood; as alſo Horſes, Cattle, Sheep, Hogs, &c. with Plantation Utenſils of all Kinds, as well as a Crop of Corn and Wheat on the Ground.

The whole to be ſold together or in Parcels, as may beſt ſuit the Purchaſers. Conditions of the Purchaſe to be agreed on the Day of Sale. For further Particulars enquire of the Subſcribers at *Baltimore-Town*, or of *James Walker* near *Elk Ridge Landing*, who will ſhew the Lands and Improvements to any deſirous of ſeeing them. There is in the Neighbourhood, adjacent to the Land, a very fine and valuable Range for Stock.

THOMAS HARRISON and Co.

THE Judges of the Land-Office having repreſented to his Excellency the Governor, that there are a great Number of Certificates in their Office unpatented, many of them are returned by virtue of Warrants, which iſſued more than Two Years ago, and others where the Two Years are near expiring;

His Excellency being deſirous that thoſe who purchaſed Warrants in the Lifetime of the late Lord Proprietary, ſhould have the Benefit of ſuch Warrants, has directed them to give publick Notice, that Patents are made out as uſual, and that Applications for Warrants under the Proclamation will be received, and the Warrants iſſue to the firſt Diſcoverer, in preference to any other Perſon, whenever the Office ſhall be opened.
